Measuring and Observing the Weather

A Meteorologist:

studies the weather

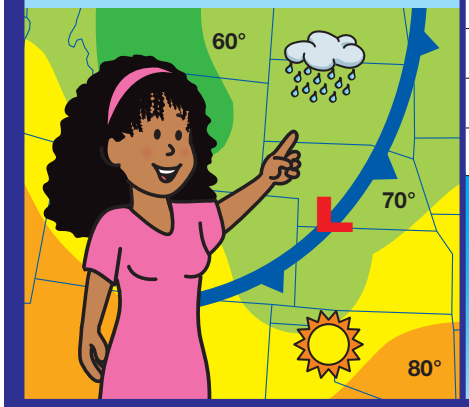
predicts the weather

uses math, science, and technology

uses weather tools and maps

may forecast on the news

can help us decide what to wear



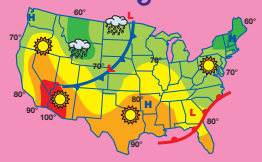
Our Weather Graph

sunny	rainy	partly sunny partly cloudy	stormy	cloudy	snowy	windy

Weather Tools:

Weather map:

shows weather conditions over a large area

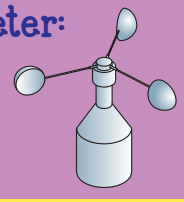


Thermometer:

measures the air temperature

Anemometer:

calculates wind speed



Snow/rain gauge:

measures how much snow/ rain has fallen in a given period of time

Wind vane:

measures wind direction
