

Reading Area Two-Sided Bookcase Assembly Instructions

15 Attach the latch **Q** horizontally to the right side panel **A** with 2 short screws **M**.

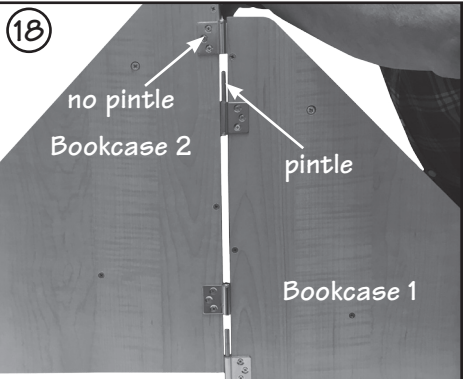

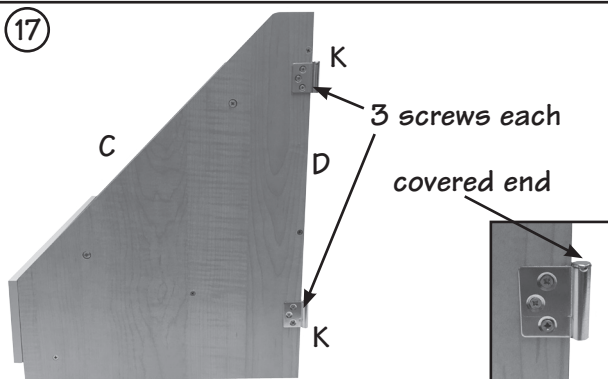

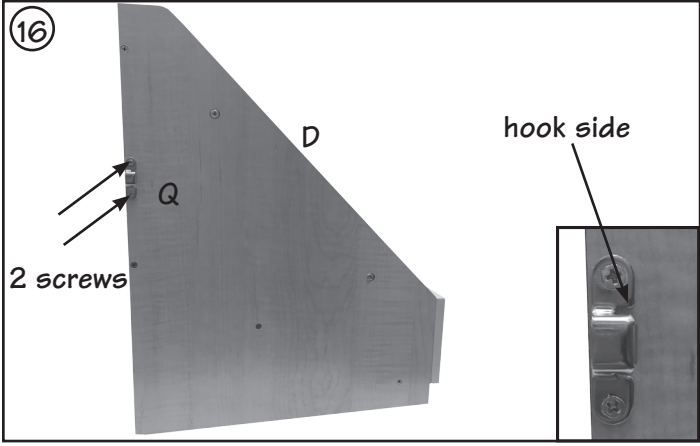

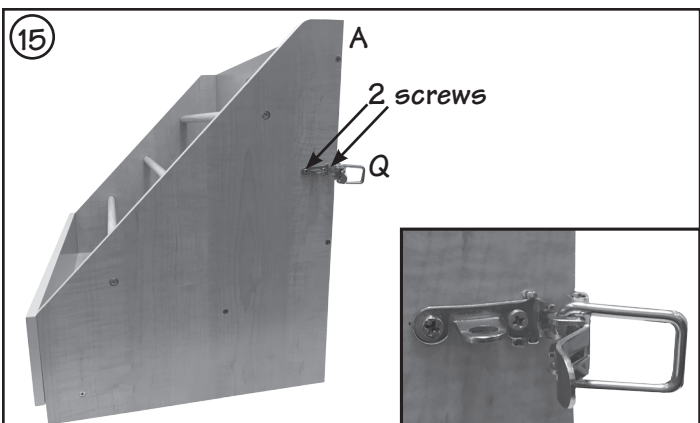

To assemble Bookcase 2:
Repeat steps 1-13 for Bookcase 2, using side panels **C** and **D** in place of panels **A** and **B**.

16 Attach the latch strike plate **Q** to the left side panel **D** of Bookcase 2 using 2 short screws **M**, making sure the hook side of the strike plate faces the front.

17 Attach the 2 hinges **K** onto the right side panel **C** of Bookcase 2 with 3 short flathead screws **N** each, making sure the covered ends of the hinges are at the top.

18 Place the bookcases back to back. Lift up Bookcase 2 (the unit with the hinges with no pintles) up and onto the pintles on the hinges of Bookcase 1.

19 Secure the bookcases together by hooking the loop edge of the latch over the hook side of the latch strike plate.

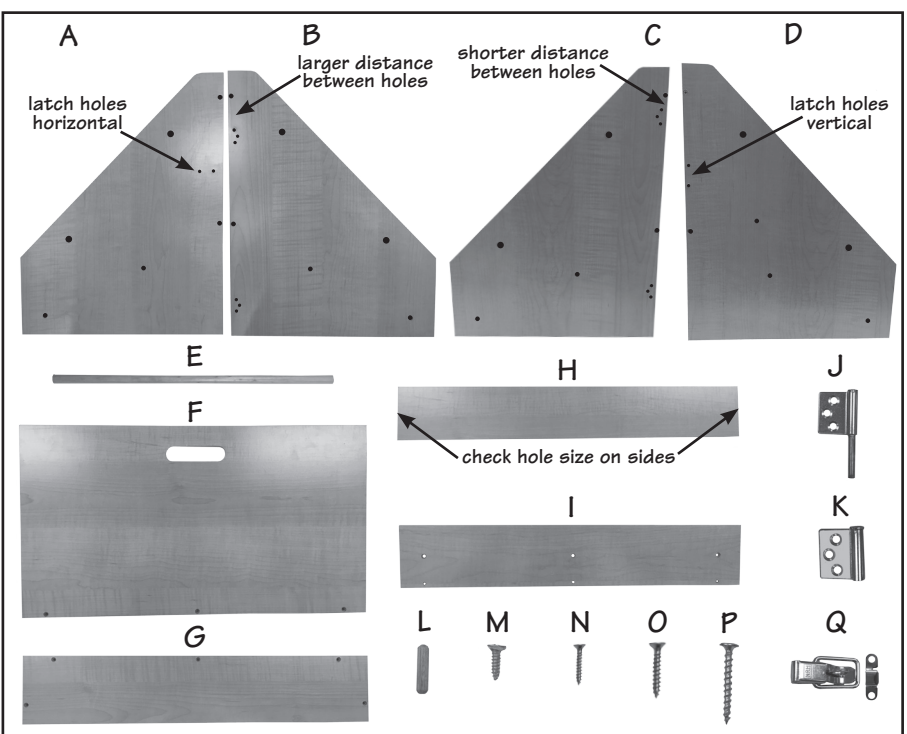

Reading Area Two-Sided Bookcase Assembly Instructions

WARNING
CHOKING HAZARD - Small parts.
Not for children under 3 years.

Congratulations on your purchase of this Reading Area Two-Sided Bookcase. (Adult assembly required)

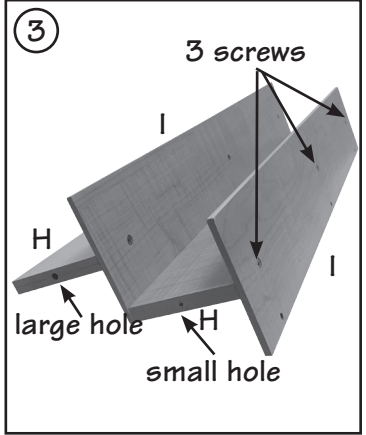

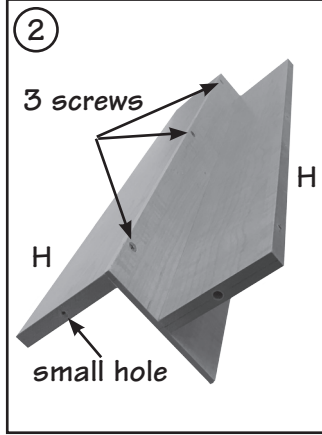

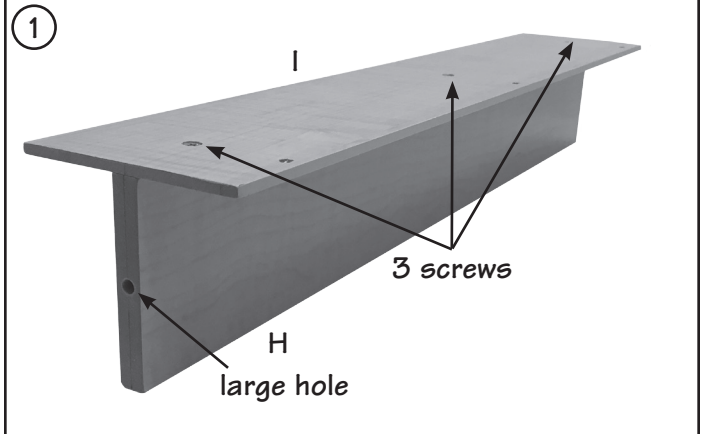

This Really Good Stuff® product includes:

- A - Right side panel of Bookcase 1
- B - Left side panel of Bookcase 1
- C - Right side panel of Bookcase 2
- D - Left side panel of Bookcase 2
- E - 6 Wood rods
- F - 2 Back panels
- G - 2 Front panels
- H - 8 Shelf bottoms (4 with large side holes, 4 with small side holes)
- I - 6 Shelf dividers
- J - 2 Hinges with pintles
- K - 2 Hinges
- L - 8 Wood pegs
- M - 4 Short round screws (for latch)
- N - 12 Short flathead screws (for hinges)
- O - 72 Medium screws
- P - 8 Long screws (for rods)
- Q - 1 Latch and strike plate

To assemble Bookcase 1:

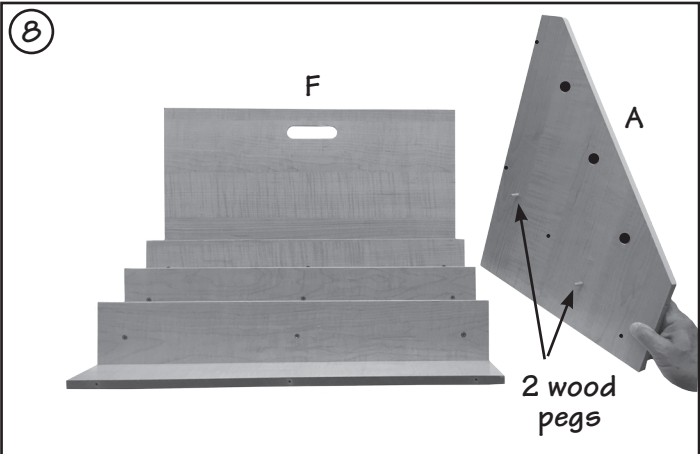

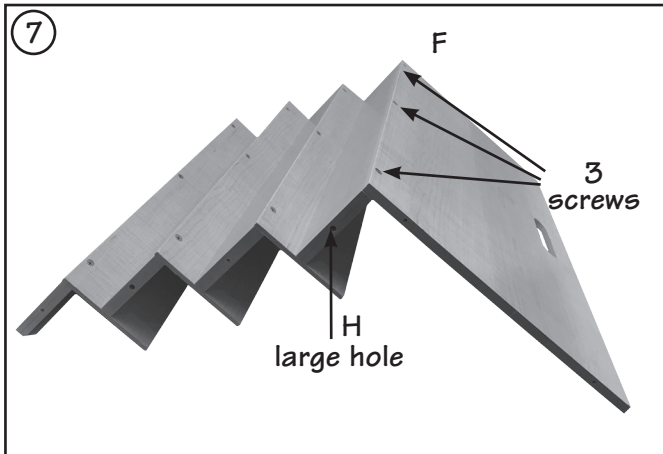

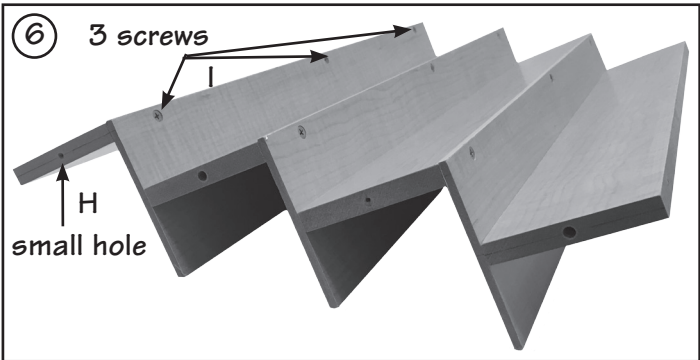

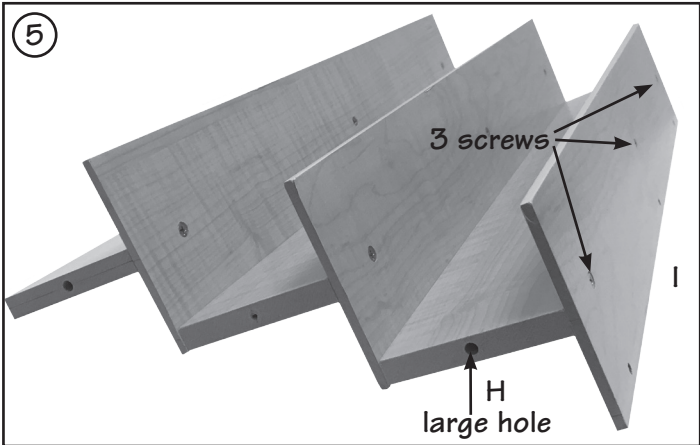

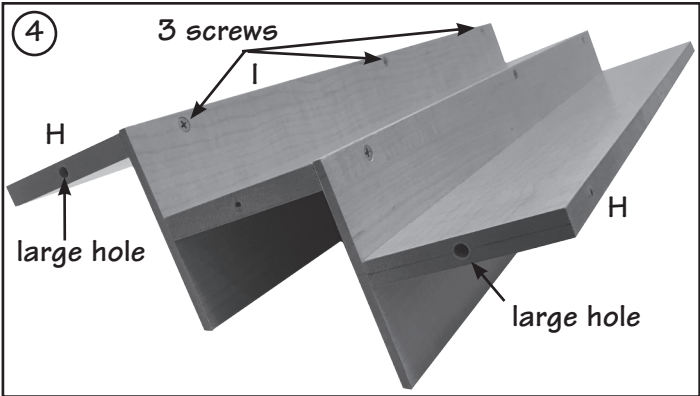

- 1 Locate a shelf bottom **H** with **large** side holes and a shelf divider **I**. Attach the 2 pieces together with 3 medium screws **O** through the divider panel into the shelf bottom.
- 2 Turn the assembled piece to the left so that the shelf bottom **H** with the large hole is facing up and to the right. Locate another shelf bottom **H** with **small** side holes and attach it to the assembled unit with 3 medium screws **O** through the shelf divider **I**.
- 3 Turn the assembled piece to the left again so that the shelf bottom **H** with the **large** hole is facing down and to the left. Locate another shelf divider **I** and attach it to the right side of the assembled unit (which is a shelf bottom **H** with the **small** hole) with 3 medium screws **O** through the shelf divider **I**.

All instructional guides can be found online.

Reading Area Two-Sided Bookcase Assembly Instructions

- ④ Flip the assembled piece over to the right so that the shelf bottom **H** with the **large** hole is on the right. Attach another shelf bottom **H** with **large** side holes to the shelf divider **I** on the left side with 3 medium screws **O** through the shelf divider **I**.
- ⑤ Flip the unit over to the left. Attach a shelf divider **I** to the shelf bottom **H** with the **large** hole on the right with 3 medium screws **O** through the shelf divider **I**.
- ⑥ Flip the unit over to the left. Attach a shelf bottom **H** with the **small** holes to the shelf divider **I** on the left with 3 medium screws **O** through the shelf divider **I**.
- ⑦ Leaving the unit in the same position, locate a back panel **F** and attach it to the shelf bottom **H** with the **large** hole on the right side with 3 medium screws **O**.
- ⑧ Flip the unit over so that the unit is upright with the back panel **F** at the back and facing forward. Locate the right side panel of Bookcase 1 **A** and insert 2 wood pegs **L** into the 2nd and 4th holes on the inside of **A**. Line up the wood pegs with the larger holes on the right side of the assembled unit.

Reading Area Two-Sided Bookcase Assembly Instructions

- ⑨ Screw in 4 medium screws **O** from the outside of panel **A**: 2 screws along the right back edge and 2 screws in the holes toward the bottom.
- ⑩ Locate 2 wood rods **E** and place them in the top and bottom holes on the inside of panel **A**. Secure the rods with 2 long screws **P** through the larger holes on the outside of panel **A**.
- ⑪ Locate the left side panel of Bookcase 1 **B** and insert 2 wood pegs **L** into the 2nd and 4th holes on the inside of **B**. Locate a wood rod **E** and place into middle hole of the inside panel **A** on the right. While holding the rod in place, line up the hole for the rod on the inside of panel **B** and the wood pegs on **B** with the larger holes on the left side of the assembled unit and squeeze together.
- ⑫ Locate 2 long screws **P** and screw into the largest holes on the outside of panel **B** to secure the wood rods. Then screw in 4 medium screws **O** from the outside of panel **B**: 2 screws along the left back edge and 2 screws in the holes toward the bottom.
- ⑬ Locate a front panel **G** and attach it to the front of the bookcase with 5 medium screws **O**.
- ⑭ Attach the 2 hinges with pintles **J** onto the left side panel **B** with 3 short flathead screws **N** each, making sure the pintles point up.
