

# EZ Build Abacus – Set of 6

## #ABAKIT

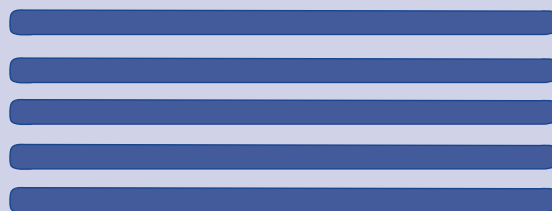

### Here's What You Get!

1 Wooden Base

2 Wooden Sides

5 Wooden Dowels

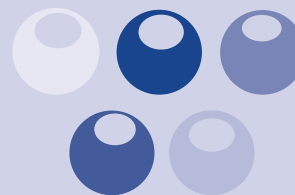

5 White Beads

5 Blue Beads

5 Pink Beads

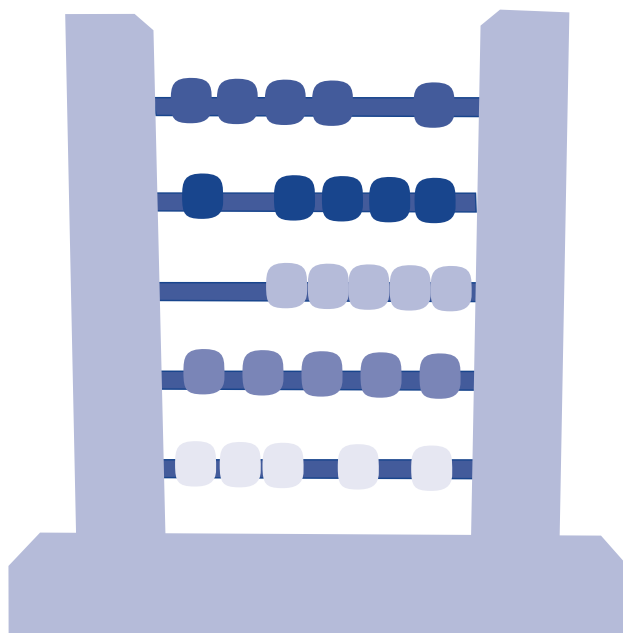

5 Green Beads

5 Yellow Beads

### Let's Get Started

1. Lay one Wooden Side on a flat work surface with the holes facing up.
2. Place a Wooden Dowel in each hole.
3. Sort the beads by color and place the Blue Beads on one dowel, the Yellow Beads on one dowel, and so forth.
4. When all of the beads are mounted onto the dowels, line up the other Wooden Side with the dowels and press down until the Sides are firmly affixed.
5. Lay the base for the abacus on the table with the holes facing up.
6. Lift the 2 Sides of the abacus with the beads up at the same time using two hands and place the notched ends into the holes of the Wooden Base firmly until the frame is securely attached to the Base.
7. Decorate the abacus with paint, markers, and collage materials and enjoy learning how to use the abacus!
