

## Easy Build Wooden House

### Here's What You Get!

1. Insert the end piece into the slots of the side pieces.

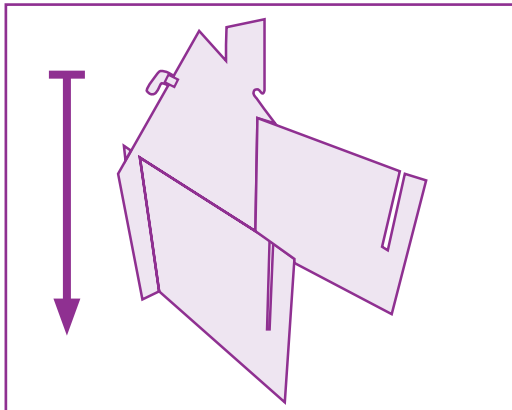

Figure 1

2. Add other end piece.

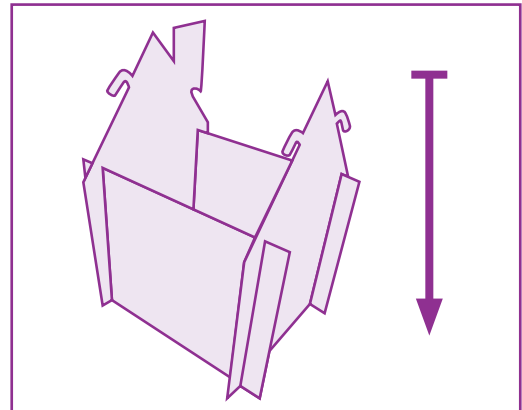

Figure 2

## Easy Build Wooden House (continued)

3. Choose the roof piece that has one long slot at the top, a medium slot on one side, and a small slot on the other side. Carefully slide the roof piece so the medium slot fits on the chimney and the small slot fits on the tab. When the roof piece is on, push up slightly so the chimney and the tab lock the roof into place.

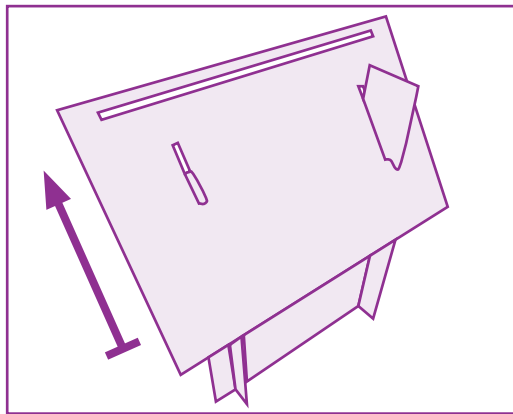

Figure 3

4. Insert the remaining roof piece through the long slot and carefully slide it down.

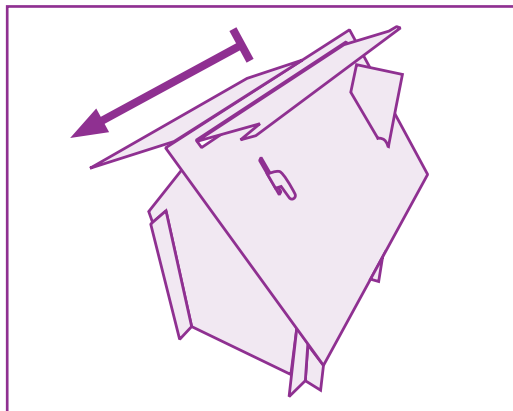

Figure 4

5. Fit the two slots in the roof piece onto the tabs on the end pieces.

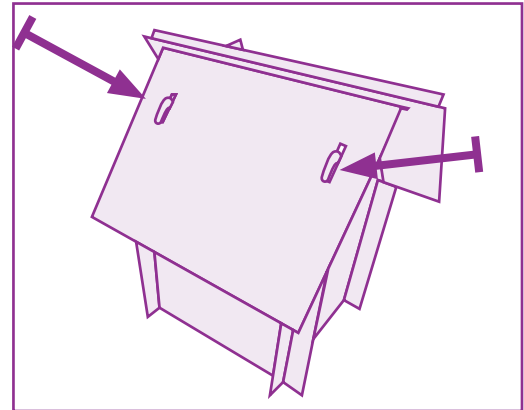

Figure 5

6. Decorate your house with crayons, markers, paints, or collage materials such as foam bits, paper flowers, pom poms - be creative!
