

Tie Dye Group Kit Instruction Guide

1. Prewash fabric
2. Set up the tie dye area by covering table with plastic table cover provided in kit.
3. Place dye bottles, gloves, and rubber bands on the table.
4. Other recommended items that may be helpful that are not included in the kit are paper towels, buckets, and resealable plastic bags.
4. Begin the tie dye process by folding, twisting, and tying fabric in sections using rubber bands
5. Fill bottles containing powdered dye color with water and shake well with cap tightened securely.
6. Use the bottles to squirt color onto sections of fabric between rubber banded sections.
7. For multiple colors, it is recommended to alternate colors so banded sections of fabric have different colors next to one another.
8. Place dyed fabric with rubber bands in place into a resealable bag or cover with plastic wrap for 6 hours or more.
9. Rinse well with clean water.
10. Cut rubber bands and unravel fabric.
11. Wash fabric alone and dry according to fabric care instructions.
