

Really Good Stuff® Teaching Guide

The Magic E Wand and Card Set

Congratulations on your purchase of the Really Good Stuff® **The Magic E Wand and Card Set**—a fun, hands-on activity to help your students learn and master the differences between short vowel and silent *e* spelling patterns.

This Really Good Stuff® product includes:

- 62 Magic E Word Cards
- 4 Lenticular Star Wands
- 1 Storage Bag
- This Really Good Stuff® Teaching Guide

Objective

Distinguish between short-vowel (CVC, CCVC) and long-vowel (CVCe, CCVCe) words when reading regularly spelled one-syllable words.

Meeting Common Core State Standards

The Really Good Stuff® **The Magic E Wand and Card Set** aligns with the following English Language Arts Standard:

Phonics and Word Recognition:

RF.1.3.c Know final *-e* and common vowel team conventions for representing long vowel sounds.

RF.2.3.a Distinguish long and short vowels when reading regularly spelled one-syllable words.

Introducing Silent E and Its Powers

The silent *e* has special powers: It can be seen but not heard, and it can make the vowel before it say its own name, changing it from a short vowel to a long vowel. Model practicing the powers of silent *e* by pretending to be “Silent *-e*” and commanding the preceding vowel to say its name. For example, “Plan. (pointing to the *a*) Say your name! /a/ Yes, so plan is now plane!”

The Magic E Wand and Card Set is an engaging way to help students practice reading final *-e* words. Students are presented with **Word Cards**. They read the word first and then place the magic wand at the end of the word. Our **Lenticular Star Wands** are unique: In the upright position, students will see the “grinning” star. But when placed down on the table, the wand’s star “magically” transforms to an *e*, changing the CVC or CCVC word into a CVCe or CCVCe word!

Included in this set are 62 **Word Cards** divided into vowel groups: blue for *a*; orange for *i*; green for *o*; pink for *u*. There is no *e* set since very few “*e*” words follow this pattern.

Managing The Magic E Wand and Card Set

- Separate the cards by vowel family and rubber band together.
- Store entire activity in the storage bag.
- Visit our Web site at www.reallygoodstuff.com to download Really Good Stuff® Teaching Guides.

Introducing the Activity

1. Select the vowel group you want to teach or review first.
2. Take one of those cards, hold it up to the group, and ask if anyone can read the word. (For example: the *can* Word Card.)
3. Note with the students that /a/ in *can* is a short vowel.
4. Ask them what happens to the word if you add an *e* on the end of it. You might do this on a white board, before introducing the wand.
5. Note with the students that the *e* makes the vowel before it say its name. The vowel right before the final *e* changes its sound from a short /a/ sound to a long /a/ sound—*can* becomes *cane*.
6. Next bring out one of the **Lenticular Star Wands** and hold it upright so that the star face shows. Tell students that this is a special wand that will ‘magically’ change when you place it down on the card.
7. Place another **Word Card** on the table. Have the students read the card, then place the **Star Wand** at the end of the word (a star outline is on the card for support). Ask them now to read the new word.
8. Continue in the same manner with all the cards.

Students love the action of the game and enjoy changing the words into Magic E words. Place this activity at a learning center where students can work together. Students can read the **Word Cards** by vowel family, or, for an additional challenge, two or more vowel families can be shuffled together. A Magic E record sheet is included. Students can record the CVC or CCVC word and the new CVCe or CCVCe word for more practice at school or at home.
