### Managing the Magnetic Spanish Syllable Tile Kit

- Label the box compartments with the stickers.
- Store the **Magnetic Spanish Syllable Tiles** in the box. Each consonant will have 2-5 corresponding syllable tiles. For example, the **b** compartment will house five syllable tiles—*ba, be, bi, bo, bu*.

### Introducing the Magnetic Spanish Syllable Tile Kit

Once students have mastered vowel sounds, they are ready to combine those vowels with consonants to make open syllables (sílabas directas). The **Spanish Syllable Tile Kit** includes the first syllables emergent readers need to master to begin decoding and encoding two-syllable words.

The **Spanish Syllable Tile Kit** includes 102 open syllables. Organize the syllable tiles by consonant so you can quickly grab the syllable tiles you need.

### Note about Storage of Tiles with Hard and Soft c and g Sounds

You may choose to separate the hard and soft sounds for **c** and **g**. As with the other tiles, place the tiles with hard **c** and **g** sounds in their corresponding consonant compartments. Place the tiles with soft sounds (*ce, ci, ge, gi*) in the extra compartment.
