Congratulations on your purchase of **Really Good Literacy Center-in-a-Bag™ Rhyme Time Lotto**, a fun game to develop phonological awareness.

Objective

The student will recognize rhymes using picture cues.

This Really Good Stuff® product includes:

- 84 Really Good Learning Deck Cards™
- 6 Lotto Boards, double-sided
- 60 Game Chips
- Center Task Card
- This Really Good Stuff® Instructional Guide

Rhyme activities are both important and enjoyable for students to develop phonological awareness, a vital component of early-literacy skills. Through repeated play, students become automatic at hearing and creating rhymes. The ability to identify rhyming words in *Rhyme Time Lotto* strengthens phonological awareness and leads to success in language and literacy.

Managing the Center-in-a-Bag

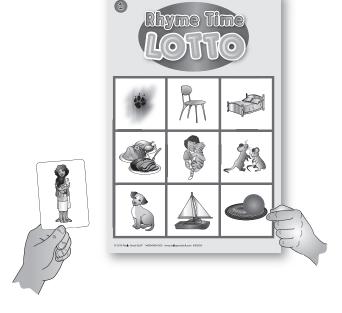

- Display the Center Task Card.
- Separate the red and blue rhyming picture Learning Deck Cards into two decks and select one color each time the game is played. This way, players have opportunities to encounter different picture rhymes.
- Copy and laminate the picture key on the reverse side to use for reference. Store it in the bag.
- Demonstrate how to tidy the center when the activity is complete.
- Store the center materials in the bag and hang it alongside other Centers-in-a-Bag.

Introducing Rhyme Time Lotto

Rhyme Time Lotto is played like Bingo. Players mark their boards to become the first one to fill a board, calling "Lotto!" Select either the red or blue Learning Deck Cards to vary the game. The caller says the pictured word while players search their boards for a rhyming match. Players quietly repeat the called word with their picture words to determine whether there is a rhyme on their board. When a player fills the board with Chips, he or she calls "Lotto!" Refer to the picture key to identify pictures as needed.

Model the Activity

Begin by modeling the activity through role-play with a student, discussing every step. Draw a Card, say the word, and display the picture Card so students can refer to it. Guide the student to search his or her board for a rhyming picture. Encourage whispering or quietly repeating the called word with the picture words to search for a rhyme. If a rhyme is found, the student marks the picture with a Chip. If no rhyme is found, guide the student to listen for the next word called. Continue modeling until your students catch on.

Summarize your demonstration: "Saying the words quietly to yourself as you search for a rhyme helps you to know if the words rhyme. With practice you will know right away when words rhyme!"

Invite a group to play a round with your guidance: "Now you are ready to play Rhyme Time Lotto."

Center Task Card

Post this at the literacy center in a visible position. The student or helper can refer to the *Center Task Card* for instructions. Refer to the shaded section at the top of the *Card* for center preparation, including needed materials.

Meeting State Standards

This type of practice in rhymes helps students meet gradelevel expectations and builds a strong phonological-awareness foundation.
